☒ Resolved ☐ Unresolved

**Ashraful Hasan** 2 days ago

Thanks, everyone! Yes, you can, of course, use the Figma file for your inspiration. I'd also follow what Ilir's suggested and write up comments which will make the design even richer. It's a great question!

### Our Mission

Edit

To promote the humane care and protection of all animals and to prevent cruelty and suffering.

### About Us

Our mission at Toronto Humane Society is to promote the humane care and protection of all animals and to prevent cruelty and suffering. The day-to-day operation of Toronto Humane Society involves the direct handling of lost, abandoned, unwanted and injured pets. Those who need it receive veterinary care; abandoned animals are given a safe haven. Immature and injured animals are placed in foster care until they are strong enough to be placed for adoption. Toronto Humane Society also provides several community programs to provide support to pet owners that need a little extra help to keep their animals in the family. Toronto Humane Society is supported solely by individual and corporate donations.

We decided not to implement the social part of the dashboard because of:

1. We do not plan to implement this
2. We want the user to focus on their courses, and nothing else

We decided not to implement the mailbox feature because we are going to be implementing the private messaging system

Write A New Announcement

From: YOU Date: 17th May, 2020 At 06:27AM

**Topic for next week's class**

Good morning everyone! This week we will continue learning how to build a basic website with HTML.

Feel free to bring in the questions you got from your assignment/ in-class activity. Can't wait to see you all in class!

Best Regards,  
Brenda

From: YOU Date: 15th May, 2020 At 09:27AM

**Hello World!**

I'm Brenda, your instructor of this course (Web Design). Thank you for registering, and I can't wait to see you all on Wednesday.

Later this week, we will invite you into our Web Design community. In there, you can discuss anything (which is related to web design) with everyone else in the community. We will post a discussion topic every week in our community. Feel free to share you thought there.

Best Regards,  
Brenda

[Refer to Slide 33](#)

Instead of numbers, we hope to display this in a series of graphs

We assume that people are going to upload their notes, not type them into this site, so we will shrink the “type to add notes”.

The 'Add Notes' form features a title bar with two tabs: 'Notes' (active) and 'Action Plan'. Below the tabs is a large, light blue rectangular text area with the placeholder text 'Type to add notes' at the top left. The form is enclosed in a thin purple border.

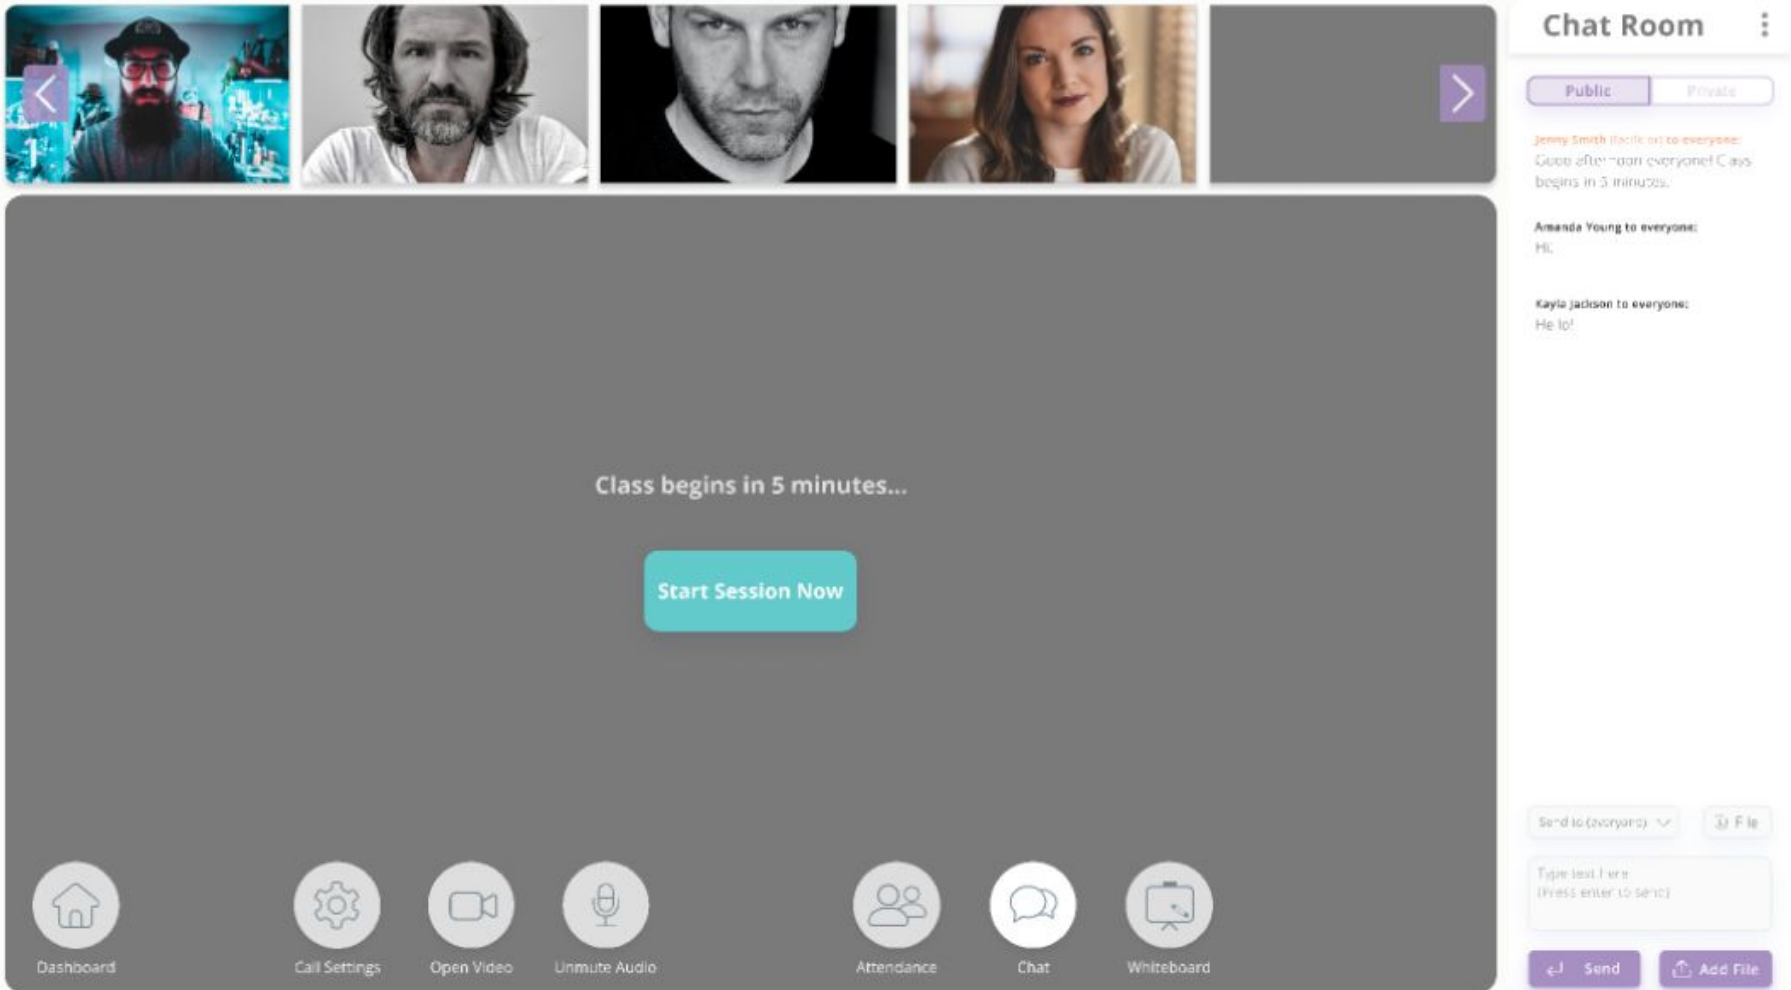

Add another notes

## AGREEMENTS AND IMPROVEMENTS

Because Ashraful's UI was made by professional UX designers, they already thought of a beautiful design which incorporates an accessible user interface.

Since we want to also be accessible for those who need special accessibility, such as the visually impaired, we also also create variations of our UI that will:

1. Have high contrast
2. Best Color Combinations for Visually Impaired Web Users: Red and green, Dark colors and darker hues (Protanopia), Mid-color tones (Deuteranopes), Light colors and greys (Tritanopes)

Features such as bigger text, and text-to-speech are provided on many modern web-browsers

## AGREEMENTS AND IMPROVEMENTS

We only took the main features from Ashraful, we did not include some images we thought were redundant.

### Page 3

- The homepage, it is a modern and stunning design so we chose to keep it
- Main page introduces what the company is to grasp the user's attention
- Easy access to create an account or sign in

### Page 4

- Creating account form is good
- Has the general information needed to register a user
- Explicitly specifies what type of user you are (ie, (student, instructor, social initiatives))

## Page 5/6

- In these pages, U-Impactify collect data from new users about what type of features they plan on using so product owners determine what people are interested in so that they can focus on updating them to make them flawless in the future

## Page 7

- Prompts user to enter their payment method
- Listed the terms and conditions of the subscription below

## Page 8

- Login page, quick and easy access straight from the main page
- Options to reset password or create an account if misclicked on this page

## Page 9

- Right after the user has signed up, quick tutorial on how to navigate through the site

## Page 11 (Social Initiative)

- Gives organization the ability to customize their own profile as they desire

## Page 12 (Social Initiative)

- Able to see what volunteer/employment opportunities they have posted
- Able to edit and manage these post
- Able to create new opportunities for users

## Page 13 (Social Initiative)

- Create a new posting for users to view
- Contains all the information to appeal to a user

### [Page 15](#) (Impact Consultant)
